
Roll of industrial tape for marking

Reference : 18

Description :

Delineate your spaces effectively and cost-effectively! The industrial floor marking roll is the ideal solution for structuring and organizing your workspaces without complex work. Its quick and economical installation makes it an essential tool for optimizing the safety and ergonomics of your premises. Technical specifications:- Dimensions: Width 100 mm x 30 meters.

- Qualities: Different adhesive qualities meet the requirements of your workshops to ensure the best possible adhesion of your markings. For optimal effectiveness, choose your adhesive tape according to your work environment (humid environment, floor type, etc.).
- Reinforced (0.76 mm): Resistant to swiveling casters, suitable for new or renovated floors.
- Extra (0.84 mm): Designed for the most demanding environments, with tapered edges to reduce tripping hazards.
- Colors: 6 colors available

Benefits of installing industrial marking tape:- Quick and easy installation: No complex work required, immediate application.

- Reduced cost: Economical solution compared to paint or permanent coatings.
- Adaptability: Available in several thicknesses and colors to meet the specific needs of each environment.
- Flexibility: Ability to modify or replace the marking without altering the floor.
- Increased safety: Allows for clear signage of risk areas, traffic lanes, and storage areas.
- Simplified maintenance: Smooth surface limits dirt accumulation and facilitates cleaning.
- Environmentally friendly: Fewer harmful substance emissions compared to traditional paint.

When and why should you use floor marking? Floor marking is an essential solution for improving organization and safety in various professional environments. It is particularly recommended for the following applications:- Movement safety: Demarcation of pedestrian areas and traffic lanes for industrial vehicles (e.g., forklifts).

- Space organization: Signage for storage areas, workstations, and specific locations.
- Productivity improvement: Implementation of Lean Management and 5S principles to optimize efficiency.
- Risk prevention: Identification of hazardous areas, emergency exits, and restricted areas.
- Flexibility and scalability: Quick adaptation to organizational changes without major construction work.

Opt for effective and durable marking with our industrial adhesive signage roll!

Benefits :

- Ideal for delimiting specific areas without work and at a lower cost!
- Industrial floor marking roller 30 metres long and 100 mm wide
- A multitude of colors available
- Easy maintenance and resistant to wheel pivoting due to its smooth surface
- Designed to withstand harsh environments
- Quick and efficient installation on the ground for a visual and rigorous appearance

Technical specifications :

Product Name	Roll of industrial tape for marking
SKU	18
Weight (kg)	1.000000
Application	Workshop, Warehouse, Logistics, Storage, Signaling, Marking
