

Ergonomic Anti-fatigue Matting | ANTI-FATIGUE MATTING PREMIUM

Reference : 54

Description :

- Made with wide bevelled edges to eliminate stumbling risks.
- 100% pure nitrile rubber with no recycled materials and no latex. Hard wearing with unbeatable life span.
- Full range of ergonomic properties in addition to anti-fatigue.
- Its unique smooth-surfaced (uniform) design stimulates the body, improves blood circulation, and helps maintain employee alertness, thereby reducing sickness leave along with its associated expenses and quality problems.
- In addition, it makes equipment such as chairs and trolleys easier to wheel, requiring much less effort.
- Suitable for any type of environment.
- Thickness: 11 mm.

Benefits :

- Resistant to oils, greases and other industrial fluids.
- Facilitates prolonged standing work and relieves muscle pain.
- Wide integrated bevelled edges prevent the risk of falling.
- Made from high quality natural rubber for maximum durability.
