

KANBAN batch box | LEANFLASH FULZE

Reference : 266

Description :

The original KANBAN batching box |LEANFLASH FULZE is aimed to visually structure the creation before manufacturing the order. From an empty starting point, the operator will progressively fill up the FULZE with the quantity of the batch, then extract the cards in order to form the next batch. - The magnetic or adhesive attachment allows a limitless set up according to the quantities desired.

- The FULZE is replenishable and can hold several cards.

Benefits :

- The FULZE Kanban support offers great flexibility in the constitution of batches: add as much support as you wish according to the quantities of batches required.

- Each holder can be supplied with several universal or coloured Kanban cards.

- The Fulze Leanflash is available in magnetic or adhesive versions.
