## Single hook

*Reference : 425*

---

### Description :

This simple hook can be fixed to an aluminium profile using an M5 screw (supplied). It allows you to hang a shovel or broom on a cleaning station or any other light accessory.

---

### Benefits :

- Robust, stable for industrial applications.
- It allows you to hang a shovel or broom on a cleaning station or any other light accessory.
- Hook your bracket easily into the grooved anodized aluminum profile using an M5 screw (included).
- Removable very easily and conveniently in the event of a change in the location of the hooks.
- Set of 3 single hooks 50 mm long with plastic end cap.
