
Angular connectors for LEANDYNAMIC

Reference : 555

Description :

This set of 4 angular connectors (with screws) can be used to create the structure of your dynamic shelving (LEANDYNAMIC). This kit allows two aluminium profiles to be connected at an angle.

Benefits :

- This kit is suitable for diagonally connecting two aluminium profiles to your structure.
- The aluminium profile is very quickly fixed to the connector.
- The connectors can be easily installed and removed in the grooves of the aluminium section profiles.
- Build your dynamic shelving easily and efficiently!
