
M5 T-slot nut with spring and screws for aluminium extrusion profile mounting

Reference : 565

Description :

M5 T-slot nut with spring and screws for aluminium extrusion profile mounting

Benefits :

- This product is required to attach an accessory to an aluminium profile with an 8 mm slot.
- The cleats allow the accessories to be easily positioned on the workstations.
- They are easy to use and convenient to connect aluminum profiles to other parts.
- Made of high quality carbon steel, these nuts have a high hardness and a long service life.
- Thanks to the spring, it is possible to fix the cleats where you want it in the groove of the profile.
