

KANBAN batching box | LEANFLASH FULZOTTO

Reference : 634

Description :

The original KANBAN batching box |LEANFLASH FULZOTTO is aimed to visually structure the creation before manufacturing the order. From an empty starting point, the operator will progressively fill up the FULZE with the quantity of the batch, then extract the cards in order to form the next batch. - The magnetic or adhesive attachment allows a limitless set up according to the quantities desired.

- The FULZOTTO with a capacity of 16 cards can be stacked and can hold one card by location.

Benefits :

- Easily organize and optimize your batch workflows and quickly visualize the series to be produced.
- The Fulzotto Leanflash has a capacity of 16 universal or stackable colour Kanban cards.
- Thanks to the interlocking system of the supports and the magnetic fixing, you can create your batch boxes without limit for a planning that suits your image.
