KANBAN card stand for crates | SUPPORT TO HANG ON

Reference : 637

Description :

The range of SUPPORT FOR KANBAN makes it possible to answer all the uses of identification in production (containers parts, components, cardboards etc) to be clearly identified by a readable, accessible and visual map.

Benefits :

- These transparent Kanban card holders are ideal for quick identification of the contents of your plastic crates.

- The clip system on the front of the holder ensures that your universal or colour kanban card is securely held in place.

- Depending on the storage of your plastic bins, prefer the holder to be placed or slipped on, which is more suitable when the bins are stacked.
