

KANBAN card holder for pallet | SUPPORT FOR PALLET

Reference : 14865

Description :

The range of SUPPORT FOR KANBAN makes it possible to answer all the uses of identification in production (containers parts, components, cardboards etc) to be clearly identified by a readable, accessible and visual map.

Benefits :

- This transparent Kanban card holder is ideal for quick identification of the contents of your pallets.
- Simply slide the card holder between your pallet and packages for temporary identification.
- For even more simplicity, print your information on paper to the dimensions of the Kanban cards using SESA'PRINT.
