

## Grey flexible cable organiser

*Reference : 14914*

### Description :

The articulated cable tray with rectangular design is ideal for hiding the cables of electronic devices. The cables are placed and stored under the table, preventing the wires from getting tangled. The cable tray is made of plastic with a painted aluminum finish for total integration into the furniture.

### Benefits :

- Articulated and modular cable tray, ideal for accompanying the movements of your electric desk, from sitting to standing
- Hides and aesthetically protects your cables
- Rectangular element to better organize and store cables inside
