

White LED pictogram light projector | Illuminated projector

Reference : 14978

Description :

Gobo projector with intense brightness and sharp and precise contours. It is powered by a 60W LED at 7500 ° Kelvin, for gobos with exceptional rendering indoors. The projector is supplied with three interchangeable lenses that allow you to vary the opening angle according to the distance and the desired gobo size. 25 °, 32 ° or 43 °: easy to replace, they will allow you to display the logo or the message of your choice with always perfect quality! The projector comes in a compact housing with 236mm sides. Discreet, it weighs only 3 kilos and generates little heat thanks to Led technology. It can run all day or all night, for the duration of the event. Easy to learn, it is piloted with the remote control (supplied). Also, you can adjust the brightness or the rotation of the gobo thanks to the potentiometers located at the back of the case. The replacement of the gobo is instantaneous and is carried out in a few seconds (beware of the heat of the metal, gloves are recommended). Technical characteristics :- GOBOS spotlight comprising a white LED with a power of 60W for indoor use

- Indoor projection distance with artificial lighting: 5m-6m
- High quality optics for a clear and crisp projection
- Adjustable rotation and dimming on the back of the case
- Delivered with 1 GOBO in duplicate among 5 models to choose from (pedestrian crossing, prohibited trolley, forbidden pedestrian, attention trolley and STOP)
- GOBOS dimensions: 54 mm, visible: 40 mm
- Easy access for GOBO replacement
- Manual focus
- Low power consumption, low heat
- Beam opening angle: 25, 32 or 43 degrees (3 lenses included)
- LED with long lifespan estimated at 50,000 hours - IEC input / outputs for daisy chaining (up to 17 lkon IR in 230V and 9 lkon IR in 120V)
- LED color temperature: 7500 K
- Suspension bracket included
- Includes UC-IR remote control
- Multi-voltage power supply 100-240V 50 / 60Hz
- Power consumption: 74W max.

Benefits :

- The projector is installed in just a few minutes.
 - The use of LED technology guarantees a low consumption projector.
 - Ideal to project a security sign on the floor (stop sign, pictogram, direction arrow, etc.)
-

Technical specifications :

Product Name	White LED pictogram light projector Illuminated projector
SKU	14978
Weight (kg)	1.000000
Application	Workshop, Warehouse, Logistics, Signaling, Storage
