

Technical fees for tool slot cutting

Reference : 15015

Description :

The principle of 5S is that each tool is in its place for better organization and, consequently, productivity gains. We make all the cuts 100% adapted to the shape of your tools. For this, certain information is necessary and essential. The cutting model must be defined in computer format with all the dimensions and shape of your tools. Upon receipt of your order, a proof will be sent to you for validation.

Benefits :

- A cut of your 100% personalized foam.
- Simple and quick, using your plan, we cut out tailor-made locations for your tools.
- Thanks to our cutting option: you can easily create any type of location.
