

Electrical workshop trolley | LEANPOST 200 ERGO

Reference : 15626

Description :

The electrical workshop trolley| LEANPOST 200 ERGO with bin-holder function is an essential tool for Lean Manufacturing: it provides all the components necessary for the production chain, close to the operator. This ergonomic cart facilitates the work of operators in their movements, their movements and their actions. These various advantages are essential for providing better comfort and promoting the use of good postures at work. The electric workshop trolley is a robust tool, both light and handy, which increases productivity for the company. - Solid steel base (gray epoxy paint) on 4 Ø 75 mm castors with brake

- Bin tray adjustable in height from 590 to 890 mm
- Platform inclination: 20°
- Electric actuator controlled by a dual-function control panel
- Permitted load: 30 kg

Benefits :

- Electric workshop trolley, ergonomic and adjustable in height from 590 to 890 mm thanks to its telescopic column
- Easy adjustment thanks to its remote control fixed under the table top, quick and silent position change
- Tank dimensions: European standard of 600 x 400 mm
- Indispensable to keep the components necessary for the production line easily accessible by the operator without bending
- Productivity gains due to its high mobility and reduced MSD risk due to the height adjustment of the service

Technical specifications :

Product Name	Electrical workshop trolley LEANPOST 200 ERGO
SKU	15626
Weight (kg)	1.000000
Application	Assemblage, Électrique, Ergonomie, Industrie, Lean Manufacturing, Logistique, Picking , Production
