

Screen printing for NETPOST 300B

Reference : 18242

Description :

The principle of 5S is that each tool is in its place for better organization and, consequently, productivity gains. For the realization of the screen printing, certain information is necessary and unavoidable. The screen printing model must be defined in computer format with all the dimensions and shape of your tools. Upon receipt of your order, a proof will be sent to you for validation.

Benefits :

- Instant visualization of available or missing tools
- 100% customizable with the location of your tool indentations.
- Indispensable for a successful 5S approach that is respected by all!
