

## Set of 10 magnetic KANBAN card holders

Reference : 143251

### Description :

The range of SUPPORT FOR KANBAN makes it possible to answer all the uses of identification in production (containers parts, components, cardboards etc) to be clearly identified by a readable, accessible and visual map.

### Benefits :

- This Kanban card holder can accommodate the universal and colour Kanban cards in our range, allowing clear, precise and fast identification of components in your production workshops or warehouses.
- The adhesive backing can be used on plastic crates, spout boxes or shelving systems.
- A magnetic version is also available. This holder can be used, for example, to replace label holders on metal racks.

### Technical specifications :
