
LED lighting for workstations | LED skylight

Reference : 18636

Description :

The LED skylight with grooved anodized aluminum frame combines a modern rectangular design with a fixed luminous flux that is both soft and very radiant, like natural light. It provides high quality, homogeneous, glare-free light which improves working conditions. - Low consumption LED without temperature rise.

- Uniform and homogeneous brightness.
- Light intensity adjustable using an integrated dimmer.
- Do not use in humid environments
- European standard electrical outlet

Benefits :

- Ensures a homogeneous and comfortable light flux.
- The aluminum frame guarantees design and optimal protection.
- Energy efficient thanks to its low consumption LED panels.
- The intensity of the light is adjustable using an integrated dimmer.

Technical specifications :

Product Name	LED lighting for workstations LED skylight
SKU	18636
Weight (kg)	1.000000
Application	Atelier, Contrôle, Lean Manufacturing, Maintenance, Qualité
