

Constant level workshop plastic parts bin trolley | LEANPOST 400 ERGO

Reference : 4

Description :

The electric workshop trolley |LEANPOST 400 ERGO provides great comfort in the operator's work. Thanks to its height-adjustable tray, the level is kept in a constant position and prevents the operator from bending over. Throughout the day, this ergonomic bin trolley supports the operator in his movements and travels: handling the bins is made easier thanks to the tray adjustment, which allows a comfortable grip height for working. The operator's spine is less stressed, and the risk of musculoskeletal disorders is reduced. - Can support loads of up to 60 kg/132.3 lb

Benefits :

- Workshop trolley with height-adjustable tray to keep components at a constant level without bending
- Indispensable to facilitate the gripping of the constant level components required for production at the assembly station, regardless of the number of bins
- Easy adjustment thanks to its remote control fixed under the table top, quick and silent position change
- Can support loads up to 60 kg
- Tank dimensions: European standard of 600 x 400 mm
- Easy handling thanks to the height adjustment allowing a better grip of the components
- Productivity gains due to its high mobility and reduced MSD risk due to the height adjustment of the service

Technical specifications :

Product Name	Constant level workshop plastic parts bin trolley LEANPOST 400 ERGO
SKU	4
Weight (kg)	1.000000
Application	Lean Manufacturing, Industrie, Production, Assemblage, Logistique, Picking , Électrique, Ergonomie
