

## Hanging aluminium rail | HANGING ALUMINIUM RAIL

Reference : 18550

### Description :

The suspended aluminium rail provides optimum text visibility, enabling clear, precise internal identification of storage, logistics or other activity areas. This suspended steel rail is easy to hang and makes it easy to change your texts. - Complete kit version:

This kit includes all the components needed for immediate, optimum use. It consists of :- 1 aluminium rail, length 3000 mm, suspended by 2 chains (L 3 Metres) with S-shaped fixing hook.

- 3 PRODOC SUSPENDU A4 white with 2 chains

- Separate version:

This version allows you to order each component individually, for maximum customisation.

### Benefits :

- Allows to set up easily and quickly an efficient aerial signage system.
- Propitious for clear and precise internal identification in storage areas, logistics and production workshops.
- With a length of 3000 mm, the rail offers optimal visibility on the various markings.
- Compatible with interchangeable PRODOC ETUI, for quick location identification.
- Ideal for your 5S approach: one place for everything!
