

## LEAN magnetic pictogram | Magnetic 6S pictogram with colored segments

Reference : 18706

### Description :

The 6S Magnetic Pictogram with Colored Segments is an expanded version of the 5S system, with the addition of a sixth step: Safe. The 6S method is also an approach to workplace organization, aimed at improving efficiency, safety, and quality of work. Each "S" represents a key step, and color coding makes it easy to visualize and apply these concepts in a professional environment. Each of the colored segments is linked to a step:- Seiri (Eliminate) Red: Eliminate unnecessary objects to keep only the essentials.

- Seiton (Tidy) Yellow: Organize necessary objects so that they are easy to find.
- Seiso (Clean) Orange: Regularly clean work areas to ensure a clean environment.
- Seiketsu (Standardize) Blue: Standardize procedures and best practices.
- Shitsuke (Comply) Green: Maintain discipline to respect the previous steps and encourage continuous improvement.
- Safety Purple: Integrate safety into every step to ensure a safe workplace.

The fact that this pictogram is magnetic allows it to be attached to metal surfaces (such as a whiteboard or equipment), making it easily visible and accessible in a work environment.

### Benefits :

- Communicate efficiently and simply with your employees on your LEAN sites!
- Magnetic pictogram that attaches to any metal surface.
- Tilt the current step to quickly identify it.
