
Upper Roll Holder

Reference : 18681

Description :

The upper roll holder offers a practical solution to maximise space, improve production efficiency and facilitate material management at the packaging station. It attaches to the grooved anodised aluminium uprights to perfectly support your roll as it unwinds. The holder is height adjustable to suit different roll formats. - Available in widths from 1200 to 2000 mm

- Depth 300 mm
- Supplied without roll

Benefits :

- This sturdy and stable roll holder easily attaches and adjusts in height to the grooves of the aluminium upright
- Available in widths from 1200 to 2000 mm
- Changing a roll is quick and easy
