

LEANFLASH DYNLOT

KANBAN batch box

REGISTERED
MODEL

The **KANBAN Batch issuer** | LEANFLASH DYNLOT system is a major innovation in the field of KANBAN management. It allows operators to visually manage their production "batchwise" by observing visual alert thresholds.

- The LEANFLASH DYNLOT, with a width of 900 mm/35.43 Inch or 1800 mm/70.86 Inch and magnetic attachment, is coupled with a communication board.
- The DYNLOT can hold several BOXCART, which are then moved manually from left to right while observing defined thresholds.
- These threshold definitions take the form of coloured magnetic strips (green, yellow, red).
- Use of colours or universal Kanban cards.
- Provided with 3 magnetic tapes to cut by yourself (green, yellow, red)
